"Low Carbon Sheep Farming: from Innovation to Practice" is a dissemination event of the mid-term results of the SheepToShip LIFE project.

- SheepToShip LIFE is a five-year project (July 2016 - July 2021), co-funded by the EU LIFE Programme 2014-2020, which aims to reduce by 20% in 10 years the greenhouse gas emissions of the sheep dairy sector in Sardinia, through the identification and application of eco-innovative techniques.

- The Web Conference aims to take stock of the progress of the project and to contribute to the debate on rural development strategies, aimed at promoting the environmental sustainability of sheep production systems. In particular, the event will propose a comparison on the key instruments of the National Strategic Plan for Rural Development (NSP) 2021-2027, with the purpose of assessing the replicability of the replicability of the SheepToShip LIFE best practice proposals at both national and European scales.

After sharing the experiences from SheepToShip LIFE project, the conference will focus on a range pf themes: the NSP and the potential impacts of the rural development instruments on the sheep farming supply chain in Sardinia, the technical and scientific dimension (CNR, UNISS and Agris), and the political and institutional side at both regional (Departments of Agriculture and Environment of the Autonomous Region of Sardinia) and national levels (Council for Agricultural Research and Analysis of Agricultural Economics).

In addition, the director of the environmental evaluation service at *IDELE (Institut de l'Elevage*, France), will talk about the lessons learned on Carbon Farming Schemes in France, illustrating the governance models they developed with the purpose of facilitating the adoption of climate-friendly practices in the agricultural and livestock sectors.

Target group

- **Trade associations and networks of livestock farms**
- **Industry, consortia** and, in general, companies processing sheep milk products
- **Public bodies and private consultants** providing technical assistance to farmers and producers
- **Regional or national Institutions representatives,** responsible **for governance** in the e**nvironmental, agricultural and rural development** sector.

How to join

For joining the event, please, send an email to info@sheeptoship.eu as soon as possible, since availability is limited! Instructions for joining the event via WebMeeting will be provided via email. The event can also be seen here: https://live.cnr.it/multimedia2.html . WebConference will be available both in Italian and English languages.

11.00 11.15	Conference introduction and institutional greetings	Introduction by **Giorgio Matteucci**, *Director* *CNR Istituto per la BioEconomia* *Institutional greetings by* ***Gianni Lampis**, Councillor* *Assessorato della Difesa dell'Ambiente* ***Gabriella Murgia,** Councillor* *Assessorato all'Agricoltura e Riforma Agro-pastorale* Chairman **Gianluca Cocco** *Assessorato alla Difesa dell'Ambiente* *Regione Autonoma della Sardegna*
11.15 11.45	SheepToShip LIFE: from innovation to practice	**Pierpaolo Duce** **Enrico Vagnoni** *CNR Istituto per la BioEconomia* **Giovanni Molle** *Agris Sardegna* **Alberto Atzori** *Dipartimento di Agraria UNISS*
11.45 12.00	Tools and opportunities for the sheep farming sector in Sardinia	**Giulio Capobianco** **Maria Annunziata Poddie** *Assessorato all'Agricoltura e Riforma Agro-pastorale* *Regione Autonoma della Sardegna*
12.00 12.15	Carbon Farming Schemes in France	**Jean-Baptiste Dollé** *IDELE Institut de l'Elevage, France*
12.15 12.30	The challenges of the CAP for climate change mitigation: capitalising on LIFE projects and territorial experiences	**Alessandro Monteleone** **Danilo Marandola** *CREA Consiglio per la ricerca in agricoltura e l'analisi dell'economia agraria* *Centro di ricerca Politiche e Bioeconomia* *RRN Rete Rurale Nazionale*
	Conclusions	**Gianluca Cocco** *Assessorato della Difesa dell'Ambiente* *Regione Autonoma della Sardegna*
